Snow and Ice Removal Services  
CATA Responses to Vendor Questions

VENDOR QUESTIONS AND CATA'S RESPONSES:

1. **420 S Grand Ave. - Do you have designated spots for the snow? This site is very tight without many spots for snow, especially heavy snow falls.**

Yes, there are designated locations for the snow piles. Smaller snow piles can be placed on the entire west side of the building, along the retaining wall. Larger snow piles can be placed next to the dumpster on the northwest corner of the building or at southeast corner of the building, in the landscaping area, before the exit ramp onto Lenawee Street. Attached is a map for your reference.

2. **Do we clear the city walk off Grand?**

Yes

3. **4615 Tranter - In the back of the building what is the best time to clear the areas where the busses line up? I also noticed not alot of areas for the snow to be placed unless busses are clear.**

Please refer to the scope of work; plowing is to begin at one-inch of snowfall or ice regardless of the time day.

 SMALLER SNOW PILES

 LARGER SNOW PILES
