

RFP Selection Criteria

To be considered responsive, bidders must include details regarding the following criteria in their RFP.

- Detailed examples that demonstrate the experience of the team assigned to this project in the following areas
 - Knowledge of NTD reporting requirements and the ability to provide analysis.
 - Familiarity and understanding of various transit technologies and the data available from the technologies.
 - Experience in conducting peer analysis based on NTD and transit systems' budget details.
- Provide references of at least 3 transit systems for which the vendor has completed similar work.

The overall budget for this project is \$48,000. The RFP must include a detailed schedule of total hours listed by task for this project.
