

**ADDENDUM # 2 TO CATA RFP #2012-111
CAPITAL AREA TRANSPORTATION AUTHORITY
PURCHASE OF PARA-TRANSIT BUS LIFTS**

Attached are questions received from interested vendors in regard to the above Request for Proposal (RFP). Below are CATA's official answers to those questions.

1) Q Where is the work to be performed?

A. Work location shall be noted by the vendor. CATA will not provide work space for this project.

2) Q How many vehicles are to be upgraded?

A. Number of buses could range from 5 to 15 units. The model years include 2006 to 2010 Ford E450 Champion Challenger buses. Center mount lifts with various seating capacities.

3) How many days does the Contractor have to upgrade each vehicle?

A. The length of time required to complete a bus and the project are not certain. Meeting service demands may limit the number of buses available at one time to complete this project so while CATA does not expect the project to take the entire year, CATA did indicate this as a timeline.

Please also refer to the information listed within the revised cover page of the **PURCHASE OF PARA-TRANSIT BUS LIFTS RFP** which is enclosed with this correspondence and also available on the CATA website at www.cata.org, and located under the heading "Doing Business With CATA".
