

**ADDENDUM # 1 - BUS TIRE LEASE Request For Proposal (RFP) #2013-105
CAPITAL AREA TRANSPORTATION AUTHORITY (CATA)**

Bus Tire Lease RFP #2013-105

Section II-C, Scope of Work

Paragraph 4.4, Tire Support and Repair Supplies, has been revised to include the following language:

Supplies such as patches, plugs, valve cores, valve stems, wheel weights and high temperature valve caps, etc. shall be supplied by the Contractor as part of this contract. CATA uses only steel wheels. Vendor shall note their ability to provide wheel cleaning and painting services and a cost to provide this service to CATA. Wheels are to be cleaned to remove all rust and debris from the wheel mating surfaces, lug holes visually inspected to insure they are free for cracks and uniform in dimension, and bead areas visually inspected to insure they are parallel. The wheels are to be painted black in color. CATA has no preference as to a paint code for this color. This needs to be noted as a per wheel cost.

This Addendum is also available on the CATA website at www.cata.org, located under the heading "Doing Business With CATA".
